

Dungeons & Dragons & Decisions

Demonstration by Ohio Network for Innovation

Adventurers will experience a demonstration of the unique Supported Decision Making (SDM) Role-Playing Game, **Dungeons & Dragons & Decisions**. Learn how to play the game, spend time playing through a storyline in small groups, and then come back together to discuss how to apply the strategies used in the game to real-life decision-making.

A narrator will guide adventurers through a land of fantasy, risk, and reward contemplating a series of decisions. You can experience 20+ different outcomes depending on decisions made along the way. In the end, participants will have learned and practiced decision-making skills that are useful in real life!
